RELEVANT EXPERIENCE

Full Stack Web Developer: Restaurant Food Ordering Website   **2022 to 2023**

- Developed a restaurant food ordering website using Angular, PostgreSQL, Node.js, and Express.
- Designed a user-friendly interface that enables customers to browse the menu, place orders, and track the status of their orders in real time.
- Worked collaboratively with a team to deliver a high-quality product on time.

Capstone Project Leader: Blog Website Development   **2021 to 2022**

- Led a team of four to develop a professional blog website using Express, React, and MongoDB.
- Designed a responsive UI with SCSS and implemented key features such as user authentication and post-creation.
- Coordinated with team members to ensure timely project completion and delivered a high-quality final product.

Application Development Team Member: Disaster Relief Inventory Management   **2020 to 2021**

- Created an application that manages the list of goods and services available in a disaster area.
- The application tracks the number of items, checks items' expiration date validation, and stores the information in a file for future use.
- Using the method of Inheritance in C++ provided an opportunity to reuse the code functionality and more efficient implementation time.

ADDITIONAL EXPERIENCE

Math Tutor | *Xinjiang Experimental High School* | *Urumqi, China*   **2017 to 2019**
- Tutored 15 students per week in private sessions using detailed lesson plans.
- Used positive reinforcement and review to help students master challenging material.
- Met with students and discussed educational goals and expectations.

Sales Associate | *Sales of Independence Boutique* | *Toronto, ON*   **2019 to 2022**
- Engaged with customers to build rapport and loyalty.
- Helped customers locate products and checked store systems for merchandise at other sites.
- Increased sales by offering advice on purchases and prompting additional products.
